

16. Examples of complete apparatus production

Noise-suppression transformer for satellite systems

Noise-suppression transformer for satellite systems. Back side

Examples of complete apparatus production

15 KVA current supply for communication satellite system in mobile action. Lightning current test at the FH Kiel with 50 kA amplitude.

Power inverter
50/60 Hz
0 - 230 V 3 KVA

Analyser for photovoltaic power inverter

Current supply 45 kVA for satellite systems

Air-cooled galvanic commutator

Water-cooled galvanic commutator 40 KVA

UPS- Systems in Modular Design
Left 40 KVA

Below 2x 160 KVA with battery
cabinet and air conditioning
equipment
